

Company Name: BriteBill

Project Name: BriteBill Demo

Funding: Innovation Voucher

BriteBill is a rapidly expanding young company with an expertise in servicing the billing requirements of large Telecommunication companies

PROBLEM TO BE SOLVED

To facilitate the launch of further data analysis to clients, the companies wishes to explore the research and development carried out by TSSG in the area of telco data analysis and visualisation.

HOW GATEWAY DELIVERED SOLUTION FOR INDUSTRY

The solution offered in the form a web application using cutting edge technologies (node.js, d3.js) to analysis and visualise the data.

IMPACT FOR THE COMPANY

It helped the company to improve its service by understanding the users information and the relationship between the users and the Telecommunications companies in an easy way by graphs and charts.
