

*Company Name: Rinshark Media Ltd*

*Project Name: GeoMemoirs*

*Funding: Innovation Voucher*

GeoMemoirs will create an online memorial page of a deceased relative or friend. What makes us unique from other memorial page services is our use of geo location technology. Using our geo location service a user can record places of interest to the person during their life as well as recording the location of their burial or where their ashes are deposited after cremation

### PROBLEM TO BE SOLVED

General development of the required website to allow users create and save events and associated data as outlined by the passage above- PHP/MySQL

### HOW GATEWAY DELIVERED SOLUTION FOR INDUSTRY

TSSG interpreted the requirements of Rinshark Media Ltd. To create the necessary PHP scripts needed to create all the functionality required to achieve the main goals that Rinshark Media Ltd. Envisaged for this project - within time and budget.

### IMPACT FOR THE COMPANY

The development from TSSG allowed Rinshark Media Ltd. have a working prototype available to demonstrate to potentially interested investors and customers alike.
